

DANA CARBON SENSITIVE ESG EQUITY STRATEGY

QUARTERLY
Fact Sheet

As of December 31, 2022

INVESTMENT PHILOSOPHY

Dana adheres to a relative value investment philosophy that combines structural risk controls with stock selection. We believe that a disciplined process of active management can add value over time.

INVESTMENT OBJECTIVE

Dana's Carbon Sensitive ESG Equity Strategy seeks to generate long-term capital appreciation while avoiding investment in fossil fuel asset owners or producers. The Strategy aims to deliver consistent returns for an investor's screened U.S. equity exposure.

INVESTMENT STRATEGY

Dana's Carbon Sensitive ESG Equity Strategy holds a diversified portfolio of about 50 stocks from our screened universe. We fully integrate Environmental, Social and Governance (ESG) factors into our analysis. Comprehensive and balanced proprietary ESG rankings help determine companies for inclusion in the Strategy's investment universe. Our investment process incorporates a wide spectrum of valuation, growth, and profitability metrics to help identify securities that possess attractive valuation and growth characteristics relative to their peers. Risk controls are implemented throughout the portfolio construction process, and we look to add value with disciplined fundamental stock selection. The Strategy provides a blend of characteristics designed to help navigate through all market cycles.

Dana Investment Advisors, Inc. ("Dana") claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. GIPS is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein. Dana has been independently verified for the periods January 1, 1992 through December 31, 2021.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The Dana Carbon Sensitive ESG Equity composite has had a performance examination for the periods November 30, 2012 through December 31, 2021. The verification and performance examination reports are available upon request.

- Definition of Firm:** Dana Investment Advisors, Inc. is an SEC-registered independent investment management firm established in 1980 and is not affiliated with any parent organization. Dana manages a variety of equity, fixed income, and balanced portfolios for primarily U.S. institutional, individual, and mutual fund clients.
- Composite Creation Date:** November 30, 2012. The composite was known as the Dana Carbon Sensitive SRI Equity composite through December 30, 2017 and thereafter known as the Dana Carbon Sensitive ESG Equity composite.
- Composite Definition:** The Dana Carbon Sensitive ESG Equity composite includes all fee-paying, discretionary equity portfolios that invest in U.S. equities with the goal of providing long-term capital appreciation within a well-diversified ESG integrated equity strategy. which does not invest in the Energy sector. The composite does not have a minimum size criterion for membership. A complete list of composite descriptions is available upon request.
- Benchmark Description:** The benchmark for the Dana Carbon Sensitive ESG Equity composite is the S&P 500 Index.
- Performance and Fees:** Valuations are computed and performance is reported in U.S. dollars. Gross-of-fees returns are presented before investment management and custodial fees but after all trading expenses. The composite contains both traditional commission paying and bundled-fee (i.e., asset-based pricing) portfolios. Trading costs are allocated to bundled-fee portfolios at actual asset-based rates. If actual asset-based trading costs cannot be readily identified, the entire bundled fee (which may include costs for administration, investment management, custody, asset allocation, etc.), net of Dana's investment management fees, is deducted from the gross return. Net-of-fees returns are calculated by deducting Dana's actual investment management fees from the monthly gross-of-fees returns. Dana's current standard annual Carbon Sensitive ESG Equity fee schedule is 0.75% on the first \$10MM, 0.65% on the next \$15MM, and 0.60% thereafter; however, Dana's investment management fees may vary based upon the differences in size, composition, and servicing needs of client accounts. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.
- Standard Deviation:** The 36-month annualized standard deviation measures the variability of the monthly net-of-fees composite and the benchmark monthly returns for the period. The 36-month annualized standard deviation is not presented for 2012 to 2014 as the periods were less than 36-months from the composite's inception.
- Internal Dispersion:** Dispersion is calculated using the equal-weighted standard deviation of annual net returns of those portfolios that were included in the composite for the entire year.

Past performance is not indicative of future results.
