DANA CATHOLIC ESG EQUITY STRATEGY

HERITAGE A strong family culture

THE WISE CHOICE

Since our founding in 1980, Dana has remained independent and Employee-owned. Our investment firm is built on trust, integrity, and professional experience.

QUALITY

Excellence in meeting client expectations

Dana strives to provide personalized client service and excellence in everything it does. We are uncompromising in our efforts to deliver superior results to clients.

EXPERTISE

Focus on what we do best

Dana has assembled an investment team with diverse skill sets and specialized knowledge. We are adept at navigating challenging market environments and developing customized solutions.

CONSISTENCY

Adherence to a uniform process

Dana implements a uniform investment process to minimize volatility and improve consistency of returns. We seek repeatable and predictable results to most effectively grow cumulative wealth.

Dana Investment Advisors was built on the belief that adhering to a defined investment process allows our professionals to focus on the fundamentals of consistent outperformance through security selection.

- Founded in 1980
- Employee-owned
- Equity, taxable and tax-exempt fixed income, and ESG asset manager
- \$7.487 billion of assets under advisement as of March 31, 2021
- Headquartered in Brookfield, Wisconsin

MULTIYEAR WINNER 2012 ★ 2013 ★ 2014 ★ 2015 ★ 2016 ★ 2017 ★ 2018 ★ 2019

> We've never wavered from our goal of providing abovemarket returns while reducing volatility for our clients.

Universe: The union of the Russell 3000 Index and S&P 1500 Index (approximately 3000 stocks)

	STRUCTURAL RISK CONTROLS Sector neutral, equal weighted, fully invested to minimize volatility and focus on stock selection as primary value add							
	ESG		FINANCIAL					
	Derive proprietary relative ESG rank from discretionary E, S, and G scores	I N	Derive proprietary sector relative rank based on valuation, growth, and quality					
Quantitative Models	Utilize thousands of underlying data points from multiple ESG vendors	T E	Utilize earnings, cash flow and growth metrics, and balance sheet variables	Quantitative Models

50 – 55 STOCKS WITH STRONG ESG AND FINANCIAL CHARACTERISTICS BY SECTOR

ADVOCACY

Proxy voting, letters and resolutions, corporate engagement

Dana's holistic process is **Comprehensive**, **Balanced**, **Thoughtful** and it adheres to the faith-based guidelines set forth by the U.S. Conference of Catholic Bishops (USCCB)

Comprehensive: Dana's proprietary quantitative Environmental, Social, and Governance (ESG) model utilizes thousands of underlying data points from multiple vendors to rank approximately 3,000 U.S. stocks.

Balanced: An ESG rank is calculated for each stock by equally weighting the factors using a geometric mean that helps to identify companies with favorable performance across all E, S, and G considerations.

Thoughtful: Dana integrates ESG criteria into Dana's stock selection process, resulting in positive, best-in-class representation. Advocacy efforts are aligned and consistent with process.

Faith-Based: Dana's faith-based investing incorporates the U.S. Conference of Catholic Bishops guidance to protect human life and dignity, economic justice, and the environment.

DANA EQUITY STRATEGIES

Investment Philosophy

We strive to generate excess *risk-adjusted returns* through a *consistent and disciplined* investment process.

DANA EQUITY STRATEGIES

Structural Risk Controls		Relative Valuation				
Idea Generation		Sector Neutral				
	Structural Risk Controls	Equal Weighting				
Fundamental Analysis		Position Size Limits				
Sell Discipline		Fully Invested				

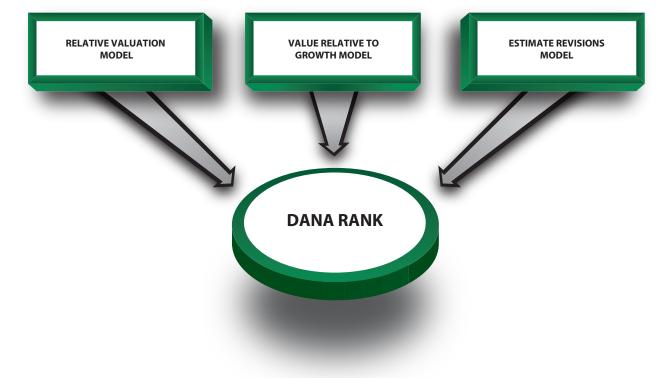

Dana's sector neutral investment approach recognizes it is very difficult to predict future sector performance. Dana's Risk Approach: Structural Risk Controls are the groundwork for our repeatable and consistent investment process.

Fundamental analysis drives the Dana sell discipline

way.

Carbon Intensity Analysis

Carbon footprint analysis quantifies greenhouse gas emissions (GHG) embedded within the referenced Strategy and Index ("portfolio") presenting these as tonnes (metric ton) of carbon dioxide equivalents (tCO₂e). Comparing the total GHG emissions of each portfolio company holding relative to annual revenue, gives a measure of carbon intensity that enables comparison between companies, irrespective of size or geography. Each holding's contribution to the carbon footprint of the portfolio is calculated on an equity ownership basis. The carbon footprint of the given portfolio is the sum of these contributions, normalized by revenue owned.

PROXY VOTING GUIDELINES

dana esg PROCESS

CORPORATE GOVERNANCE

- For an independent chairman of the board
- Against directors serving on more than four boards, more than three for active CEOs
- Against CEO directors serving on the compensation committee
- Against all director nominees if no women are on the board or slate
- Against all director nominees if minority of directors would be independent
- Against ratification of auditors if non-audit fees exceed 25% of total fees paid
- Against ratification of auditors who have served more than ten years

EXECUTIVE COMPENSATION

- For proposals to link pay to performance
- For executive retention of significant stock
- For disclosure of disparity between executive compensation and employees' median wage
- Against say-on-pay proposals when executive pay does not match company performance
- Against excessive pay packages (less than \$10 million is typically a yes vote; more than \$20 million is, in most cases, a no vote; discretion in the middle)
- Against re-pricing or replacement of stock options (with rare exceptions)
- Against stock option plans that do not apply to all vested/ tenured employees
- Against stock option plans that could result in excessive dilution to existing shareholders

SHAREHOLDER RIGHTS

- For proposals to allow shareholders to act by written consent
- For proposals to allow qualified shareholders to nominate director candidates (proxy access)
- For proposals to adopt a simple majority vote standard (for vs. against, abstentions not counted)

ENVIRONMENTAL

- For reports on climate change risks, water use risks, GHG emissions reduction targets, renewable energy targets, environmental impact of fracking and other practices, avoidance of conflict minerals, sustainability, supply chain risks, political spending, lobbying that can be produced at a reasonable cost
- For proposals to adopt quantitative renewable energy goals
- For policies that limit global warming to 2°C
- For proposals to adopt recycling strategy

<u>Social</u>

- For proposals to implement human rights standards and codes of conduct
- For proposals to improve access to health care
- For proposals to implement humane treatment of animals
- For proposals to end predatory lending practices
- For proposals to increase diversity in the workforce
- For reports on gender pay
