ADVOCACY

Proxy voting, letters and resolutions, corporate engagement

Dana's holistic process is **Comprehensive**, **Balanced**, **Thoughtful** and it adheres to the faith-based guidelines set forth by the U.S. Conference of Catholic Bishops (USCCB)

Comprehensive: Dana's proprietary quantitative Environmental, Social, and Governance (ESG) model utilizes thousands of underlying data points from multiple vendors to rank approximately 3,000 U.S. stocks.

Balanced: An ESG rank is calculated for each stock by equally weighting the factors using a geometric mean that helps to identify companies with favorable performance across all E, S, and G considerations. A size adjustment is then utilized to compute a relative Dana ESG rank that is used to create an investment universe comprised of the top 30% of companies by market capitalization (~900 to 1000 stocks).

Thoughtful: Dana integrates ESG criteria into Dana's stock selection process, resulting in positive, best-in-class representation. Advocacy efforts are aligned and consistent with process.

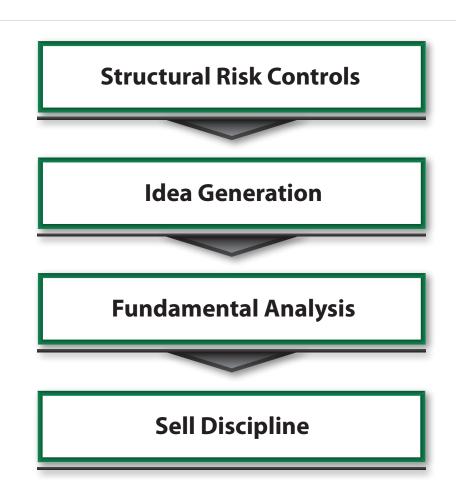

Faith-Based: Dana's faith-based investing incorporates the U.S. Conference of Catholic Bishops guidance to protect human life and dignity, economic justice, and the environment.

PROXY VOTING GUIDELINES

DANA CATHOLIC P R O C E S S

CORPORATE GOVERNANCE

- For an independent chairman of the board
- Against directors serving on more than four boards, more than three for active CEOs
- Against CEO directors serving on the compensation committee
- Against all director nominees if no women are on the board or slate
- Against all director nominees if minority of directors would be independent
- Against ratification of auditors if non-audit fees exceed 25% of total fees paid
- Against ratification of auditors who have served more than ten years

EXECUTIVE COMPENSATION

- For proposals to link pay to performance
- For executive retention of significant stock
- For disclosure of disparity between executive compensation and employees' median wage
- Against say-on-pay proposals when executive pay does not match company performance
- Against excessive pay packages (less than \$10 million is typically a yes vote; more than \$20 million is, in most cases, a no vote; discretion in the middle)
- Against re-pricing or replacement of stock options (with rare exceptions)
- Against stock option plans that do not apply to all vested tenured employees
- Against stock option plans that could result in excessive dilution to existing shareholders

SHAREHOLDER RIGHTS

- For proposals to allow shareholders to act by written consent
- For proposals to allow qualified shareholders to nominate director candidates (proxy access)
- For proposals to adopt a simple majority vote standard (for vs. against, abstentions not counted)

ENVIRONMENTAL

- For reports on climate change risks, water use risks, GHG emissions reduction targets, renewable energy targets, environmental impact of fracking and other practices, avoidance of conflict minerals, sustainability, supply chain risks, political spending, lobbying that can be produced at a reasonable cost
- For proposals to adopt quantitative renewable energy goals
- For policies that limit global warming to 2°C
- For proposals to adopt recycling strategy

<u>Social</u>

- For proposals to implement human rights standards and codes of conduct
- For proposals to improve access to health care
- For proposals to implement humane treatment of animals
- For proposals to end predatory lending practices
- For proposals to increase diversity in the workforce
- For reports on gender pay
