

DANA INTERMEDIATE BOND STRATEGY

QUARTERLY Fact Sheet

As of September 30, 2023

INVESTMENT PHILOSOPHY

We believe a well-diversified investment portfolio should contain a high quality fixed income allocation, and predictable results make it easier to grow cumulative wealth. Dana applies a uniform investment process to improve consistency of returns and reduce volatility.

INVESTMENT OBJECTIVE

Dana's Intermediate Bond Strategy seeks to deliver attractive excess yield over other high quality intermediate duration investment options while focusing on sector allocation, credit quality and duration in order to perform well in most market environments.

INVESTMENT STRATEGY

Dana's Intermediate Bond Strategy focuses on individual security holdings with broad market exposure to government, agency, mortgage, and corporate securities. Our process manages risk by controlling duration, yield curve positioning, sector allocation and security selection. We begin by understanding specific client objectives including income needs, time horizons, tax considerations and credit restrictions. We excel at building customized solutions and actively manage portfolios to incorporate client specific goals, while providing consistent long-term portfolio returns.

Strategy Assets and Total Entity Assets include applicable composite assets, wrap program assets, and model portfolio assets and are presented as supplemental information. Dana does not have final trading authority on model portfolio assets, which are excluded from both Composite Assets and Total Firm Assets.

Dana Investment Advisors, Inc. (Dana) claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. GIPS is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein. Dana has been independently verified for the periods January 1, 1992 through December 31, 2022.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The Dana Intermediate Bond composite has had a performance examination for the periods September 30, 1995 through December 31, 2022. The verification and performance examination reports are available upon request.

Definition of Firm: Dana Investment Advisors, Inc. is an SEC-registered independent investment management firm established in 1980 and is not affiliated with any parent organization. Dana manages a variety of equity, fixed income, and balanced portfolios for primarily U.S. institutional, individual, and mutual fund clients.

Composite Creation Date: September 30, 1995.

Composite Definition: The Dana Intermediate Bond composite includes all fixed income portfolios that invest in intermediate-duration U.S. investment grade fixed income securities with the goal of providing competitive current yield within a well-diversified, high credit quality, intermediate-duration fixed income strategy. The composite does not have a minimum size criterion for membership. A complete list of composite descriptions is available upon request.

Benchmark Description: The benchmark for the Dana Intermediate Bond composite is the ICE BofA 1-10 Year US Corporate & Government Index ("ICE BofA 1-10 Yr C/G Index"). Prior to 01/01/2023 the Benchmark had been the Bloomberg Intermediate Government/Credit Index. The change was made retroactively as the ICE BofA 1-10 Year US Corporate & Government Index better matched the characteristics of the composite.

Performance and Fees: Valuations are computed and performance is reported in U.S. dollars. Gross-of-fees returns are presented before investment management and custodial fees but after all trading expenses. Net-of-fees returns are calculated by deducting Dana's actual investment management fees from the monthly gross-of-fees returns. Dana's current standard annual Intermediate Bond fee schedule is 0.30% on the first \$3MM, 0.25% on the next \$7MM, and 0.20% thereafter; however, Dana's investment management fees may vary based upon the differences in size, composition and servicing needs of client accounts. Policies for valuing portfolios, calculating performance and preparing compliant presentations are available upon request.

Standard Deviation: The 36-month annualized standard deviation measures the variability of the monthly net-of-fees composite and the benchmark monthly returns for the period.

Internal Dispersion: Dispersion is calculated using the equal-weighted standard deviation of annual net returns of those portfolios that were included in the composite for the entire year.

Past performance is not indicative of future results.
