

# DANA UNCONSTRAINED EQUITY STRATEGY

QUARTERLY  
Fact Sheet

As of March 31, 2026

## INVESTMENT PHILOSOPHY

Change is the only constant in today's market. We are flexible in mindset, idea generation and research efforts. We cultivate a nimble, adaptable mindset that seeks catalysts and is unapologetic in its willingness to change course. We are unconstrained in idea generation with flexibility among U.S. Equity sectors and expertise in both value and growth opportunities. We seek to respect and understand disruptive change, with a bias toward owning disruptive winners and avoiding disrupted losers.

## INVESTMENT OBJECTIVE

The Dana Unconstrained Equity Strategy endeavors to generate long-term capital appreciation exceeding the benchmark return through the purchase of a limited number of companies that can thrive across disparate market environments.

## INVESTMENT STRATEGY

The Dana Unconstrained Equity Strategy is concentrated (15 to 30 holdings), conviction-weighted, and style agnostic. We search for stocks with identifiable catalysts that may meaningfully outperform over the forward 12 months. Catalysts often include growth or profitability above expectations, disruptive products or services, regulatory tailwinds, macro or exogenous factors, and management changes and/or restructuring. We focus our research efforts on identifying critical issues that will make or break an investment thesis. Trading decisions and position sizing follow from our relative valuation discipline that identifies price targets representing the Strategy's determination of fair value for individual securities.

The 36-month annualized standard deviation is not presented for 2019 to 2020 as the periods were less than 36-months from the composite's inception.
  - **Internal Dispersion:** Dispersion is calculated using the equal-weighted standard deviation of annual net returns of those portfolios that were included in the composite for the entire year.
